

# Natural Gas Today

Volume 16, Issue 2 - Summer 2019

## Speedway Industrial Growth

Middle Tennessee Natural Gas Utility District just finished a sizeable project to support Economic Development in southwest Wilson County by running eight (8) miles of new natural gas pipeline in the area. This investment will allow the growth of an entirely new warehouse district near the Nashville Superspeedway, supply gas to residential customers along the previously unserved eight (8) mile route, and support growth in the area for decades to come. MTNGUD is proud to help bring jobs to the area and to do our part to ensure secure and long-term growth and prosperity throughout our entire District.

## FUEL COST COMPARISON

FUEL	MIDDLE TENNESSEE AREA AVERAGE PRICE <i>as of May 1, 2019</i>	PRICE PER MILLION BTUs
NATURAL GAS	\$0.815 / therm Plus a \$7/month Customer Charge	\$ 8.15
ELECTRICITY	\$0.135 / kwh Plus a monthly Customer Charge	\$ 39.49
PROPANE	\$2.890 / gallon	\$ 31.48
KEROSENE	\$4.799 / gallon	\$ 35.55
GASOLINE	\$2.599 / gallon	\$ 20.79

# Natural Gas is...

## VALUABLE

Natural gas increases your property's resale value.

## ECONOMICAL

Natural gas is economical, giving you the best return for your energy dollar.

## CLEAN

Natural gas is the cleanest burning, most environmentally friendly to use of all fossil fuels.

## WARM

The heat provided by natural gas wraps you in comfort well beyond the affordable price. Natural gas is the best energy choice for drying clothes, cooking food, heating your home and water.

## DOMESTIC

Natural gas is homegrown; the majority of all gas used in the US is actually being produced in the US. This helps free our country from dependency on foreign energy, making natural gas a *natural* choice.
